Thank you to our Sponsors

President’s Corner

Dear TARC Members,

It’s hard to believe it’s almost time to celebrate the Holidays again. Hope everyone has had a successful and profitable year. Reports indicate so far this year, there has been just over 6 billion dollars of contracts awarded in Tennessee, a 14% increase from where things stood at this point in 2013. Hopefully we will continue to see similar growth in 2015.

Our fall golf event was held at Greystone Golf Club in Dickson TN.

The weather could not have better, we had a great turnout and as always our sponsors helped make this event a success. Please be sure to thank them for their support by supporting them.

The Mid Winter meeting is scheduled for January 9th at the Maxwell House Hotel in Nashville, TN. I hope everyone can attend; if you haven’t signed up please do so. Our educational committee has worked hard planning this event; one of the speakers will be Bill Good, Executive Vice President of the NRCA, please come to hear what he has to say about the Roofing Industry.

Thank you very much; I look forward to seeing you in January 2015.

Sincerely,

Rick Ragan
Victory For Tennessee Roofing Contractors Seeking Limitations For Non-Licensed Contractors

As of Jan. 1, 2014 roofing contractors in Tennessee are subject to new restrictions and licensing requirements.

A contractor who contracts, offers to engage, or obtains a permit without a license or proper classification and monetary limit is in violation of T.C.A. 62-6-120. Therefore, would be ineligible to be awarded the project, may not receive a license for six months, cannot participate in any rebidding of the project, and is subject to civil penalties.

“This is a victory for roofing contractors across the state of Tennessee,” said Jason Napier, TARC immediate past president. “As licensed contractors, we saw an uptick in roofers coming into our state after natural disasters and not offering the same caliber of work as licensed Tennessee contractors. It’s important for building owners and general contractors to be aware of the new limitations.”

Public Chapter 355 sponsored by Rep. Powers and Senators Johnson and Bowling can be summarized as:

SECTION 4 Tennessee Code Annotated, Section 62-6 is amended by adding the following language as a new, appropriately designated subsection: () No contractor shall be authorized to perform roofing work on a construction project where the roofing portion of the construction project is twenty-five thousand dollars ($25,000) or more unless the contractor is licensed; provided …

Those provisions make exceptions for licensed mobile home installers and retailers, as well as installers of modular building units.
